Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Pursuant to preliminary amendment (filed 10/31/03), claims 1-23 have been cancelled, and claims 24-43 added. Claims 24-43 are now pending.

Restriction to one of the following inventions is required under 35 U.S.C. §121:

I) Claims 24-32, 42-43, drawn to method for removing suspended particles from a protein solution, and wherein there is no requirement or suggestion that a cysteine thiol group be blocked.

II) Claims 33-41, drawn to a method of blocking a cysteine thiol group.

The claimed inventions are distinct.

Group II requires a process that is not required by Group I. However, in the event that Group I is elected, and claims therein found allowable, it is likely that novelty would accrue to Group II (subject to the same limitations).

Applicant is advised that for the response to this requirement to be complete, an election of the invention to be examined must be indicated, even if the requirement is traversed (37 C.F.R. 1.143).

.

In addition to the foregoing, applicants are required under 35 U.S.C. §121 to elect disclosed species for prosecution on the merits to which the claims shall be restricted if

no generic claim is finally held to be allowable.

In the event that Group I is chosen for initial examination, election of the following is required:

- a) a specific peptide that is present (e.g., SEQ ID NO: 1) in the solution;
- b) one of the following: (i) in the elected method, a filter press is utilized, or (ii) in the elected method, a filter press is not utilized.

.

In the event that Group II is chosen for initial examination, election of the following is required:

- a) a specific peptide that is present in the protein solution
- b) one of the following: (i) in the elected method, a filter press is utilized, or (ii) in the elected method, a filter press is not utilized;
- c) a specific agent that is used to block cysteine residues;
- d) one of the following: (i) the blocked cysteine residues are deblocked, or (ii) the blocked cysteine residues are not deblocked;
- e) in the event that the blocked cysteine residues are deblocked, election is required of a deblocking agent;

Applicant is reminded that upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a generic claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP 809.02(a).

Should applicant traverse on the ground that the species are not patentable distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103 of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Lukton whose telephone number is 571-272-0952. The examiner can normally be reached Monday-Friday from 9:30 to 6:00.
